A. Preface

Skill Explained:

The restaurant service practitioner provides high quality food and drink service to guests. A

food service practitioner generally works in the commercial sector, offering a range of

services to customers. There is a direct relationship between the nature and quality of the

service required and the payment made by the guest. Therefore, the practitioner has a

continuing responsibility to work professionally and interactively with the guest to give

satisfaction and thus maintain and grow the business.

Restaurant service demands the extensive knowledge of food and beverage. The waiter is

most important person in dealing with guest and creating a right atmosphere in restaurant. It

is therefore necessary to have a complete command of serving rules and to know the

preparation of special dishes and drinks at the guest's table or in the bar. Basic requirements

are skill and resourcefulness, good manners, good interaction with guests and practical

ability.

A wide range of specialist tools and materials will be used for the service of specialist dishes,

drinks, and wines. The practitioner will be familiar with their use in addition to the more usual

pieces of equipment that are found in most dining situations.

Irrespective of the working environment, excellent communication, and customer care skills

are universal attributes of the outstanding practitioner. Food service personnel will work as

part of a team and with other teams in the hotel or restaurant. Whatever the structure of the

work, the trained and experienced practitioner takes on a high level of personal responsibility

and autonomy. This ranges from safeguarding the health and wellbeing of the guests and

colleagues through scrupulous attention to safe and hygienic working practices, to achieving

exceptional experiences for special occasions.

Eligibility Criteria (for IndiaSkills 2018 and WorldSkills 2019):

Competitors born on or after 01 Jan 1997 are eligible to attend the Competition.

Total Duration: 12 Hrs

C. Marking Scheme

Marking Scheme: The Assessment is done by awarding points by adopting two methods, Measurement and Judgments.

Measurement – One which is measurable

Judgments - Based on Industry expectations

Aspects are criteria's which are judged for assessment

Measurement is used to assess accuracy, precision, and other performance which can be measured in unambiguous way. Mark is awarded in full for a dimension with in tolerance and zero when it is out of tolerance.

Judgment is used to assess the quality of performance, about which there may be minor differences of opinion.
